### ANTI-NATO DAY

From <http://www.STOPtheNATO.org>

ANTI-NATO DAY in date 28 May about the meeting of 19 boss of govern of members of North Atlantic Treaty Organization in the air base of Pratica di Mare nearby of Rome (Italy), in order to make the entrance of the Russia in the NATO. 15000 policemen like the GS of Genova and a lot of military weapon ready for the fight in Italy style, we need to manifest everywhere and whit anything in order to make sabotage of politics of war.

Yes because we can't stay in silence, we think that this is fuck membership because this is a globalization of death and of extermination, good only for the weapon business, new colonialism and in order to expand the power of multinational corporations. We need to manifest the dissent a this historical alliance of new world order, after the cold war the American Emperor take the culture, the right and the life of the globe, because it need a new border of war, a new investment.

We call you to do anything in your country, in your city and in your home in order to share the dissent to the Terrorist North Organization and to speak about the true informations of occidental interest in relations to the new wars and the new membership of ex soviet countries. You should to make symbolic actions against the NATO, the new wars and the military politics.

Wikipedia defines an Internet Troll as: "either a person who sends messages on the Internet hoping to entice other users into angry or fruitless responses, or a message sent by such a person." San Diego IMC strives to provide both a grassroots media resource as well as a forum for people to contribute to a meaningful discussion about local issues. Please, when posting comments, be respectful of others and ignore those trying to interrupt or discourage meaningful discourse. Thank you.
